

Health and Safety Policy

Infra-Projects is committed to maintaining a safe and healthy working environment for its people and for those associated with our business activity.

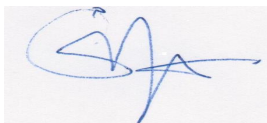

Our goal is to ensure we achieve zero accidents are harm to personnel within the workplace

The management of Infra-Projects is committed to this goal through systematic management of Health and Safety and the Environmental through compliance and continuous improvement.

Whilst undertaking client commissions we shall endeavour to:

- Ensure our designs consider safety in all instances and incorporate measures to reduce the risks users of the design to as low as reasonably practicable.
- Ensure that our stakeholders (employees, sub-contractors and where appropriate clients) implement safe systems of work.
- Ensure commitment to a health and safety culture.
- Ensure compliance with all relevant legislation and codes of practice.
- Ensure continual improvement by regular review of our safety objectives and targets.
- Ensure health and safety in the office achieves its objectives for safety performance.
- Ensure the provision of resources and infrastructure required to achieve the above and prevent accident, injury and ill health.

Infra Projects, as part of HSE procedures, are therefore proactively championing safety in all its activities and this is an integral part of company's safety policy. This will support developing our ISO 18001 submission which we plan to undertake in the near future.

G Hope

Director: Infra-Projects Limited.
